

Part D - Farm Map

(Keep Onsite - For Inspection Purposes Only)

Draw/Develop a map in the space below describing your farm operation including information such as parcel layout, crops grown, and irrigation infrastructure (wells, pipes, ditches, surface water discharge points, etc.). Update any well locations, field boundaries and surface water discharge points if they change in the future.

Legend
X - In-Use Well Locations
A - Known Abandoned Well Locations
O - Observation/Monitoring well
DP - Off Farm Surface Water Discharge Points (pipes, ditches, etc.)
