| Yates St. Garden Open<br>House & Apiary Launch | Join Pollinator Partnership Canada in celebration of<br>#PollinatorWeek as we co-host an Open House event at the<br>Yates Street Community Garden. We are celebrating the<br>unveiling of the native bee apiary that has been installed at the<br>community garden, funded by the City of Victoria's first<br>Participatory Budgeting Process. There will be opportunities for<br>members of the public to become engaged in community<br>gardening, local and urban food production, and pollinator<br>conservation and habitat creation. Our co-hosts: City of Victoria,<br>Habitat Acquisition Trust, Parks Canada, Capital Regional Food<br>and Agriculture Initiatives Roundtable, the David Suzuki<br>Foundation, the Downtown Residents Association, and the<br>Yates Street Community Garden Association. We will be<br>providing entertaining activities for the kids, and education and<br>fun for kids and adults alike. There will be a scheduled talk by<br>Dr. Lora Morandin about bees and the native bee apiary |           |            |   |               |    |   |

|   | VISIT THE POLLINATOR PATHWAY TO CELEBRATE<br>POLLINATORS AND THE DELECTABLE FOODS THEY MAKE<br>POSSIBLE Composed of educational and experiential<br>components, the Pollinator Pathway exhibit is designed to inform<br>visitors about the beauty and importance of pollinators, and<br>specific actions they can take to benefit pollinators, whether on<br>your patio or in a backyard garden. Why we focus on pollinators:<br>In the United States, pollinators are responsible for 75 percent of<br>our food supply. That is one of every three bites of food we eat!<br>Pollinators help produce some of nature's finest sweets and<br>baking ingredients: chocolate, pumpkins, blueberries and<br>strawberries. Pollinators are critical to our food supply and the<br>plant diversity we find in nature, yet across the nation, they are<br>disappearing. At the Pollinator Pathway exhibit, you will learn<br>more about bees, butterflies and other pollinators, and how to<br>help them thrive. Exhibit highlights: Native gardens-wakk through<br>our native pollinator garden and learn how to transform your | 6/16/2018 | 12·00 PM    | 2260 Jimmy Durante                            | Del Mar    | CA         | 92014 | http://www.rcdsandiego.org/san_di<br>ego_county_fair_pollinator_garden   |

| on Developing Alternatives to<br>Insecticides and Providing                     | Planting for the Bees' Needs – Providing Habitat for Honey Bees<br>and Wild Bees Did you know that Connecticut has 349 species<br>of bees – and honey bees are only one species? Bees are<br>important to us for producing honey and wax and pollinating our<br>crops, and they also are important to the health of our<br>environment, pollinating our native wild plants. We get many of<br>our ideas about bees from what we know about honey bees, but<br>honey bees are very different from our native wild bees. Learn<br>about the life cycles of bees, where they live, and what plants |           |             |   |               |      | https://ctstatelibrary.org/2015-third-  |

| Creating Healthy Habitat for<br>the Rusty-patched<br>Bumblebee | In 2017 the Rusty-Patched Bumblebee became the first<br>bumblebee to be listed as federally endangered. Discover the<br>life history of this important pollinator species, and learn about<br>recovery efforts that are underway in Illinois. Presenter Fayette<br>Aurelia Nichols is active in the restoration of habitat for the<br>Rusty-patched Bumblebee and will share her extensive<br>knowledge of the bee's habitat requirements, challenges in<br>management of natural areas for this species, and how to<br>recognize potential habitat for species recovery. After a<br>presentation indoors, we'll head out into the prairie to find native<br>pollinators. We'll observe the differences between the European<br>honeybee and several species of native bumblebees. | 6/17/2018  | 1:00 PM      | Creek Bend Nature<br>Center, LeRoy Oakes<br>Forest Preserve,<br>37W700 Dean ST. | St. Charles | IL | programs@kaneforest.com 630-<br>60175 444-3190 |

| Bee Blitz!   | The best way to learn is by doing – and in this class, you'll do<br>both! The Forest Preserve District's Natural Resources team will<br>provide an introduction to monitoring local bee populations via<br>photography. After instruction in general bee identification and<br>monitoring protocol, we'll go out into the prairie to get data.<br>You'll be assigned a pre-determined monitoring spot for<br>photographing the bees. You can use the camera on your<br>phone, a digital SLR, or any "point-and-shoot" camera. The<br>District ecologist will then download all the data collected. This<br>"Bee Blitz" will provide baseline data that will help guide future<br>management decisions.   | 6/17/2018  | 3:00 PM      | Creek Bend Nature<br>Center, LeRoy Oakes<br>Forest Preserve,<br>37W700 Dean ST. | St. Charles | IL | 60175 630-444-3190                             |

| Pollinatarium BeeBlitz                        | Join us at the Pollinatarium on June 16, from Noon - 4:30PM to<br>kick off another National Pollinator Week. The University of<br>Illinois Pollinatarium is the first free-standing science center in<br>the nation devoted to flowering plants and their pollinators. It's<br>surrounded by prairie, so it's the perfect place to spot some<br>bees! We will venture out into the fields surrounding the<br>Pollinatarium and photograph honey & bumble bees, then<br>upload the photos to BeeSpotter. We encourage you to bring<br>your camera or smartphone, though we will have cameras<br>available for those who need one. We will also have computers<br>available so you can upload your spottings immediately, should<br>you wish to do so. This event is free and open to the public. Feel<br>free to come for the whole time or stop in for only part of the<br>event. We'd love to have you join us, even if only for 20-30<br>minutes! | 6/16/2018 | 606 W Windsor Rd<br>(view on map:<br>12:00 PM https://goo.gl/4xqJTF) | Urbana        | IL | 61801 https://beespo                 | tter.org/beeblitz            |
| Pollination Celebration                       | The Monticello Farmers' Market and area organizations and<br>businesses have joined together to create a week long<br>celebration in honor of Illinois Pollinator Week (June 18-24).<br>Join us for a Wildflower Hike, a Pollinator Documentary<br>Screening, and join in several activities at the Farmers' Market.<br>www.facebook.com/events/245110336055434/  | 6/21/2018 | 3:30 PM State Street   | Monticello    | IL | 61856                                | 2178403057                   |

| BeeBlitz 2018  | Join us on Saturday, June 16, 2018 for the fourth annual<br>BeeBlitz, taking place at the beginning of National Pollinator<br>Week! All residents of Illinois, Missouri, Indiana, and Ohio are<br>invited to canvas their backyards and neighborhoods for bees,<br>snap some pics, and upload them to BeeSpotter on Saturday,<br>June 16th. The name BeeBlitz is derived from a BioBlitz, an<br>activity in which all of the biodiversity in a specific area is<br>examined, to provide a snapshot in time of the flora and fauna<br>present. BeeSpotter wants to know what species of honey &<br>bumble bees are seen, and where they are, on the weekend of<br>the 16th. We encourage veteran and aspiring bee spotters alike<br>to venture out on a nature walk and participate in the blitz. If you<br>are interested in coordinating a BeeBlitz event in your area,<br>please contact us (https://beespotter.org/contact); we'd love to<br>highlight your efforts! https://beespotter.org/beeblitz | 6/16/2018 | 8:00 AM  | Illinois, Missouri,<br>Indiana, & Ohio                                  | Illinois,<br>Missouri,<br>Indiana, & Ohio | IL, MO,<br>IN, OH |       | https://beespotter.org/beeblitz  |
| What's All the Buzz about<br>Pollinators Walk              | Pollinators are all the 'buzz' in the animal world, but why? Come to Gibson Woods during National Pollinators Week to learn about the importance of these natural wonders and hopefully see some in action.   | 6/22/2018 |          | 6201 Parrish Avenue   | Hammond                                   | IN                |       | 219-844-3188,<br>www.facebook.com/GibsonWoods<br>CountyPark  |
| Pollinator POWER! Summer<br>Day Camp                       | Pollinators are some of the hardest working creatures in nature.<br>In this 5 day camp that coincides with National Pollinator Week,<br>campers will learn about bees, butterflies, hummingbirds,<br>beetles and other pollinators while practicing safe ways to watch<br>them work.  | 6/18/2018 |          | 6201 Parrish Avenue   | Hammond                                   | IN                |       | 219-844-3188   |

| Native Plants for Pollinators   | 6/23/2018 • Louisiana State Arboretum, Ville Platte - Native<br>Plants for Pollinators, 2 p.m. Research suggests native plants<br>are four times more attractive to native bees than exotic flowers.<br>They are also usually well adapted to your growing conditions<br>and can thrive with minimum attention. Create a native flowering<br>garden for pollinators and attract not just bees, but<br>hummingbirds, butterflies and many interesting insects. For<br>more information call 888.677.6100 toll free or 337.363.6289<br>locally.  | 6/23/2018 | 2:00 PM    | 1300 Sudie Lawton<br>Lane            | Ville Platte | LA | 70586 | Call 888 677-6100  |
| Pollinator Awareness & Art<br>contest @ the Walpole<br>Farmers Market | Four Acre Farm is sponsering an Art contest for local schools to<br>help share the important roll that Pollinators play in our our<br>ecosystem and foods. There will presentations on honey bees<br>and plants that are beneficial for pollinators in general.  | 6/23/2018 |            | Spring Brook Park 915<br>East Street | Walpole      | MA | 02081 | More information will be available<br>on our sponsers facebook page.<br>https://facebook.com/FourAcreFar<br>ms |
| 100 Bugs! A Counting Book   | Join children's book author, Kate Narita, as she launches her<br>picture book 100 Bugs! It features ten different insects, including<br>several pollinators such as the eastern tiger swallowtail and the<br>tricolored bumblebee. In addition, the book features ten different<br>flowers many of which are native to the Northeast.  | 6/16/2018 | 1:00:00 PM | 2 Townhall Drive                     | Princeton    | МА | 01541 | www.katenarita.com   |
| Pollinator Friendly Pest<br>Control in the Residential<br>Garden      | Join local experts Randy Johnson and Mike Garvey as they<br>discuss how to garden with an eye towards helping pollinators,<br>from planting to control pests naturally to selecting plants that<br>will encourage a healthy pollinator community. This lecture<br>discuss pollination and how it works, common garden pests and<br>pollinator-friendly ways to control them, and an overview on what<br>to look for when choosing garden materials that will not harm<br>pollinators. There is much to learn, and this lecture aims to plant<br>seeds of ideas to make your garden pollinator-friendly. A Q&A<br>will be held at the end, and relevant handouts will be available. | 5/19/2018 | 1:00:00 PM | 82 Eastern Avenue                    | Essex        | MA | 01929 | https://www.ecga.org/events  |

| Pollinators, Plants and<br>People – Improving Pollinato<br>Habitat in the Urban<br>Environment | With bee populations being threatened by colony collapse, lack<br>of quality habitat, disease and pesticide use, it is critical that we<br>address the issues and provide as much healthy habitat as<br>possible. Urban landscapes offer a large range of opportunities<br>to incorporate pollinator plant species and techniques. These<br>projects also pose challenges with regard to maintenance, heavy<br>use, harsh growing conditions, and public perception. This<br>r presentation and panel discussion will investigate established<br>and emerging strategies for developing appropriate habitat to<br>support pollinators that also work for urban conditions.   | 6/19/2018      | 6:00 PM 979 3rd Ave  | New York | NY | http://aslany.org/event/aslany-<br>10022 pollinators-urban-environment/  |

| Pollinators, Plants and<br>People – Improving Pollinato<br>Habitat in the Urban<br>Environment | Please join us for our 2nd Annual National Pollinator Week<br>event! With bee populations being threatened by colony<br>collapse, lack of quality habitat, disease and pesticide use, it is<br>critical that we address the issues and provide as much healthy<br>habitat as possible. Urban landscapes offer a large range of<br>opportunities to incorporate pollinator plant species and<br>techniques. These projects also pose challenges with regard to<br>maintenance, heavy use, harsh growing conditions, and public<br>perception. This presentation and panel discussion will<br>investigate established and emerging strategies for developing<br>appropriate habitat to support pollinators that also work for urban<br>conditions. Event will take place at the new KETTAL Showroom<br>at the D & D Building Annex in NYC. Reception to follow. | 6/19/2018 | 6:00 PM 979 Third Avenue   | New York     | NY |        | For more information, speaker<br>bios and registration, please visit:<br>http://aslany.org/event/aslany-<br>pollinators-urban-environment/ |

| Teaching And Learning with<br>Monarch Butterflies | This two-day workshop combines classroom and field<br>experiences. It enables pre-K through 12th grade educators to<br>teach essential skills in literacy, math, science, geography,<br>technology, Spanish, the arts and social studies through the<br>story of monarchs. You will complete the workshop with all the<br>materials needed to bring this exciting and dynamic story into<br>your classroom, homes and communities. Participants are<br>provided with the knowledge, skills, materials and confidence to<br>raise monarchs in the classroom and create an outstanding<br>learning experience for students. Each participant receives:<br>Hands-on instruction by experienced teachers; Rearing cages,<br>books, posters, DVDs and other essential materials; Strategies<br>for butterfly gardens and "Monarch Parades"; Inquiry-based<br>science activities for all abilities; Activities for Mexican/pre-<br>Hispanic culture, history and Spanish language; Activities for<br>language arts, math, social studies, drama, and fine arts;<br>Distance learning projects with schools in | 6/7/2018  | 8:30:00 AM | Cincinnati Nature<br>Center                        | Cincinnati | он |       | www/cincynature.org or email<br>coconnor@cincynature.org  |
| Bee Blitz at Morgan Swamp<br>Preserve             | Join us as we learn about native bees and perform the first<br>annual bee survey at Morgan Swamp Preserve. this will be<br>followed by a Butterfly hike.  | 6/16/2018 | 11:00 AM   | 3973 Callender Rd.                                 | Rock Creek | ОН | 44084 | bissellnaturecenter@tnc.org, 440-<br>563-3081 ext 301   |

| Pollinators 101<br>Pollinator week at the<br>greenhouse               | Come celebrate pollinators at the Herb Center with a 2 hour<br>workshop on everything you ever wanted to know about flower-<br>friendly wildlife. For those who just don't have time to run their<br>own beehives, this workshop will discuss more than just<br>honeybees and butterflies. Learn about the variety of animals<br>that act as pollinators, plants that support them and ways to<br>attract them. We will look at plant lists, garden elements, how to<br>bring everything together into a pollinator-friendly design, and<br>next steps for making your yard a pollinator paradise!<br>All week we will be giving a free pollinator attracting plant or<br>other goodies with every purchase   | 6/23/2018<br>7/18/2018 |             | 110 Mill Street<br>50740 state Route 18   | Gahanna<br>Wellington | он | 43230   | 614-342-4380;<br>https://www.facebook.com/even<br>157065324994833/<br>Www.hooksgreenhouse.com |

| Learn about Pollinators     | Why are pollinators important? What native plants will create pollinator and bird friendly habitats in our gardens? Hands on activities include building a mason bee house and planting native seeds in peat pots.  | 6/20/2018 | 7:00 PM  | 405 Dundas Street   | Whitby      | ON | L1N 6A1 | Register here:<br>http://www.eventkeeper.com/code/<br>ekform.cfm?curOrg=WHITBY&cur<br>ID=324044 |
| Small, Friendly, and Green- | Did you know there are over 350 bees in Toronto, only one of<br>those being the honey bee that we all know? All of these bees,<br>many of them native to Ontario, are in danger of becoming<br>threatened or even endangered, and it's our job to do something<br>to help! Come out and learn about Toronto's new Pollinator<br>Strategy, get to know Toronto's new Official Bee, and learn how<br>to make a solitary bee home to help out some of our most<br>vulnerable creatures. Presented by Janelle Richards, Toronto<br>Public Library's first Environmentalist in Residence, as part of<br>e the Our Fragile Planet program series. Free program. For more<br>information, please contact the branch. | 6/22/2018 |          | Albion Branch - Toronto<br>Public Library - 1515<br>Albion Road, Toronto,<br>ON M9V 1B2 |             | ON |         | https://www.torontopubliclibrary.ca/<br>detail.jsp?Entt=RDMEVT352543&<br>R=EVT352543            |

| Beyond Toxics 5th Annual   | Make this Summer Solstice memorable with a glass of superb<br>wine and the sultry voice of Halie Loren. Beyond Toxics is<br>celebrating National Pollinator Week at the 5th annual Bee<br>Jazzy, a benefit to Save Oregon's Bees co-hosted by Mountain<br>Rose Herbs and GloryBee. This gala evening takes place<br>Thursday, June 21 5:30pm to 9:30 pm at the lovely Silvan Ridge<br>Winery in the wine country of southern Lane County. Proceeds<br>from the evening benefit Beyond Toxics and our Save Oregon's<br>Bees Campaign. Internationally acclaimed pop/jazz chanteuse<br>Halie Loren will be taking a detour from her "From The Wild<br>Sky" world tour to headline Bee Jazzy once again. The evening<br>opens with music by the Dana McWayne Quartet. Come join us<br>to listen to great jazz music at one of the Willamette Valley's<br>most picturesque wineries. We'll have a fun silent auction with<br>packages that include getaways to some of Oregon's hidden<br>gems and date night excursions to the opera or the theater. |  | Heard Natural Science Museum & Wildlife Sanctuary will host<br>the Moth Migration Project from July 18 - September 30, 2018.<br>The Moth Migration Project is a crowd-sourced collection of<br>hand printed, drawn and cut paper moths founded by Hilary<br>Lorenz. This collection will be exhibited in an installation along<br>walls of the Heard exhibit halls. The featured moths will include<br>species native to our region. Choosing moths, a nocturnal<br>pollinator, as the vehicle for cross-pollination and international<br>exchange, and using social media, Lorenz invites people to<br>create paper moths native to their geographic location.<br>Individuals and groups that would like to join the Moth Migration<br>Project and be included in exhibitions are encouraged to apply |           |          |  |          |    |  |

| Free Field Trip: Butterflies of<br>Cherokee Marsh | We will observe a variety of butterflies as they take nectar from wildflowers, and learn about their identification, behavior, and lifestyle. Bring binoculars if you have them—close-focusing ones work best; we will have a few extras available. Long pants and a hat are recommended. This trip is co-sponsored by Madison Audubon Society, the Southern Wisconsin Butterfly Association, and Friends of Cherokee Marsh. | 6/23/2018 | 6098 North Sherman<br>10:00 AM Avenue | Madison        | WI | 53704 | http://madisonaudubon.org/field-<br>trips/2018/6/23/butterflies-of-<br>cherokee-marsh |
| Wild! Heritage Pollinator<br>Party                | Come to Heritage Farm Museum and Village and make your<br>own pollinator plant pot out of recycled materials and ice out<br>your native plant seeds. Also play a fun game that explains what<br>pollination is and see a colony of bees!   | 6/20/2018 | 10:00 AM 3355 Harvey Road             | Huntington     | WV | 25704 | Find Heritage Farm Museum and<br>Village on Facebook!                                 |
